Logistics project coordinator: cold chain, warehouse launches and vendor-heavy projects

Summary

Project coordinator with nine years in logistics and inventory, the last three running cross-team projects. I keep projects on schedule and on budget, and I write status reports that busy leaders actually read.

Core Skills

Project schedules · Budget tracking · Vendor management · Status reports · Spreadsheets and dashboards · Cold chain safety · Training and onboarding

Professional Experience

Northbound Cold Storage — Inver Grove Heights, MN

Logistics Project Coordinator, Operations Project Office — *April 2023 to Present*

Reports to: Senior Manager, Operations Projects

- Coordinate 10 or more projects a year, including a $1.2 million freezer expansion and a new dock scheduling system
- Build project schedules and send weekly status reports to leaders in three buildings
- Track budgets and vendor invoices; caught $38,000 in duplicate billing in 2025
- Run kickoff and lessons-learned meetings for every project
- **Freezer expansion, 2025:** kept 14 vendors on one schedule; opened on time and 3% under budget
- **Dock scheduling system, 2024:** planned training for 60 drivers and dock staff; cut truck wait times by 20 minutes
